## Why is it needed?

- Hull has disproportionately high levels of deprivation
- Hull is the 4th most deprived Local Authority Area in England
- Around a third of children live in poverty
- More than 20% of households experience fuel poverty
- In the most deprived areas, life expectancy is 12.7 years lower for men and 10.2 years lower for women than in the least deprived areas of the city
- Levels of unemployment, economic inactivity and working age disability are all higher than the national average

## What does the fund address?

Hull has many dynamic, vibrant grassroots community organisations whose work transforms lives.

Small community organisations account for 86% of the voluntary sector, but receive just 13% of its income.

Greater investment in voluntary and community organisations has multiple benefits, it will:

- Increase these organisations' ability to impact positively on social need
- Stimulate individual and collective participation in the life of the city, enhancing personal agency, reducing social isolation and fostering community engagement
- Grow the resilience and sustainability of these organisations over the long term

# What will the money be spent on?

The Fund channels investment into the priorities identified in the Hull Community Plan:

- Safe and welcoming neighbourhoods
- A healthier and fairer Hull
- Reaching our potential
- Economic growth that works for all
- Responding to the climate and nature emergency
- Our culture, our heritage, our city
